Devolo WLAN 500 802.11n

## Neuer Powerline-Adapter liefert Transfer-raten von bis zu 500 MBit/s

Devolo hat einen neuen Powerline-Adapter mit der Modellnummer WLAN 500 WiLi entwickelt. Der Adapter bietet schnelle Leistung und kommt mit Transferdaten von 500 Mbit/s ausser. Möglich macht's die Range-Technologie bei der auch der Schutzkabel für die Übertragung verwendet wird, was auch den Geschwindigkeitsverlust durch eine höhere Verlustrate abtut. Im WLAN-Stand liefert der Adapter eine Transferrate von 300 Mbit/s. Mit einer WiLi-Class-Funktion können WLAN-Einstellungen herbeigeholt werden, sodass Geräte automatisch auch mit dem neuen Devolo-Hotspot verbunden werden. Ein zusätzlicher Ethernet-Port lässt zudem den Anschluss weiterer kabelgebundener Endgeräte zu. Für den Zugriffsschutz wird der WLAN-Verkehr via WPA verschlüsselt, während bei der Powerline-Datensicherung eine 128-Bit-ATX-Verschlüsselung zum Einsatz kommt.

Der neue Devolo Powerline-Adapter kostet nur 116 Franken im Kit mit dem Router-Adapter WLAN 500 Duo-130 Franken und im Network Kit mit zwei WiLi und einem Router-Adapter schliesslich 220 Franken. Callcenter-Anfragen sind unter 0800 100000 möglich. Internet: [www.devolo.ch](http://www.devolo.ch)
